10:07 – Blessing notices that students aren't able to get the hands on that they do at school

Classroom Management objective : How can we get students to have good attendance, show up on time, etc.

10:20 Elizabeth Montgomery noted that if we could lock the door, also noted that she understands we have unique students with lots of exceptions.

Dress Code Objective

10:22 Callie Krause noted hygiene more than anything, if figured out would be a huge win. Maybe we could investigate a shower room at school for students who may not have that option as available.

10:24 Danylle Espenson noted maybe if we wore scrubs and we could launder them at school for the students that could cover dress code and hygiene.

10:27 Londyn Espenson noted at the face foundry where she works, they all must wear black

10:29 Blessing Reynolds said at her work they all have good hygiene and have their own sense of style they can wear.
