

MINNESOTA WEST COMMUNITY & TECHNICAL COLLEGE

Jackson Campus

HOUSING

The list for available housing is maintained by Connie Beckius in Student Services. Although Minnesota West makes the list available, Minnesota West does not take responsibility or liability for negotiations or rental agreements or mediations or disagreements between landlords and renters or facility conditions. The attached sheets will give you some idea of what is available for housing in Jackson. For an updated housing list you may call Jackson Campus, or stop in the main office.

The numbers after the student openings indicate how many students the landlord has room(s) for in that particular apartment. Please keep in mind that room openings are subject to change constantly.

Rent in Jackson is reasonable. The places listed are apartments in private homes, generally fully furnished, which are typically shared with other students. Students are expected to comply with general policies and regulations set by the homeowner. For example homeowners (not Minnesota West) may specify which gender they are able to accommodate in their housing.

There is other housing available in apartment buildings. These apartments might be more expensive than housing in private homes.

Parents and students may contact the school for information on housing and are responsible for making their own arrangements for housing. It is strongly suggested that students visit Jackson Campus personally to arrange for accommodations. Ask for assistance if you need help in securing housing or interpreting any lease or rental agreement.

We hope this information is of help to you.

Revised for Fall/Spring "2017/18"
