Course Title:
Construction Drafting, Design and Blueprint Reading

Catalog Description:
Construction Drafting, Design and Blueprint Reading introduces the students to the basic principles of mechanical drafting, architectural drafting and the design of floor plans. Auxiliary views, cross sections and elevation views will also be studied and drawn. Students will have the opportunity to learn both hand drafting methods and computer aid drafting. The student will be taught the skills needed to accurately read and interpret a complete set of working drawings for residential and light commercial construction projects.

Prerequisites or Necessary Entry Skills/Knowledge:
None

FULFILLS MN TRANSFER CURRICULUM AREA(S) (Leave blank if not applicable)
Goal 1: Communication: ____ by meeting the following competencies:
Goal 2: Critical Thinking: ____ by meeting the following competencies:
Goal 3: Natural Sciences: ____ by meeting the following competencies:
Goal 4: Mathematics/Logical Reasoning: ____ by meeting the following competencies:
Goal 5: History and the Social and Behavioral Sciences: ____ by meeting the following competencies:
Goal 6: The Humanities and Fine Arts: ____ by meeting the following competencies:
Goal 7: Human Diversity: ____ by meeting the following competencies:
Goal 8: Global Perspective: ____ by meeting the following competencies:
Goal 9: Ethical and Civic Responsibility: ____ by meeting the following competencies:
Goal 10: People and the Environment: ____ by meeting the following competencies:

Topics to be Covered
- Reading a scale
- Drawing layout styles
- Standard dimensioning requirements
- Drafting symbols
- Drafting tools and drawing aids
- Drawing plot plans, foundation plans, floor plans, elevations, sections and detail plans
- Styles of residential houses
- Kitchen and bath designs
- Computer aided drafting software (CAD)

**Student Learning Outcomes**

| Identify and demonstrate proper use of scales used in architectural drafting. |
| Identify use of drafting board and drafting tools to draw plot plans, foundation plans, floor plans, elevations and section drawing. |
| Identify symbols used in architectural drafting. |
| Identify building code requirements for residential construction projects. |
| Identify and discuss different styles of residential houses. |
| Identify various kitchen and bath designs and draw cabinet details of each. |
| Demonstrate the use of CAD to draw plot plans, foundation plans, floor plans, elevations, section drawings and detail plans. |
| Produce blue prints using an Architectural plotter. |

**Is this course part of a transfer pathway:** Yes ☐ No ☒

*If yes, please list the competencies below
