Course Title:
Problem-Based Learning for the OTA I

Catalog Description:
Problem-Based Learning for the OTA I develops the necessary skills to identify appropriate resources, interpret, and apply knowledge to the practice of occupational therapy. This course focuses on developing the critical thinking skills needed to promote the use of evidence-based practice throughout the occupational therapy process. Ethical reasoning and problem-based learning concepts of collaboration will be introduced. Opportunities for independent and active learning are provided throughout the course with a strong emphasis on developing skills for lifelong learning.

Prerequisites or Instructor Approval:
None

FULFILLS MN TRANSFER CURRICULUM AREA(S)
Goal 1: Communication: _____ by meeting the following competencies:
Goal 2: Critical Thinking: _____ by meeting the following competencies:
Goal 3: Natural Sciences: _____ by meeting the following competencies:
Goal 4: Mathematics/Logical Reasoning: _____ by meeting the following competencies:
Goal 5: History and the Social and Behavioral Sciences: _____ by meeting the following competencies:

Goal 9: Ethical and Civic Responsibility: _____ by meeting the following competencies:
Goal 10: People and the Environment: _____ by meeting the following competencies:

Topics to be Covered
Scholarly writing and reports
Evidence-based practice using scholarship, screening, and assessment tools
Effective communication

Student Learning Outcomes
(Introduction to ACOTE Standard B.4.23. Effective Communication)
Define effective communication with patients, families, communities, and members of the interprofessional team in a responsive and responsible manner that supports a team approach to the promotion of health and wellness.
Describe principles of interprofessional team dynamics to perform effectively in different team roles to plan, deliver, and evaluate patient- and population-centered care as well as population health programs and policies that are safe, timely, efficient, effective, and equitable.

**B.6.1. Professional Literature and Scholarly Activities (Mastery Level)**
Locate and demonstrate understanding of professional literature, including the quality of the source of information, to make evidence-based practice decisions in collaboration with the occupational therapist; explain how scholarly activities and literature contribute to the development of the profession.

**B.6.2. Quantitative and Qualitative Methods (Mastery Level)**
Understand the difference between quantitative and qualitative research studies.

**B.6.3. Scholarly Reports (Mastery Level)**
Demonstrate the skills to understand a scholarly report.

**Is this course part of a transfer pathway:** Yes ☐ No ☒
