Course Title: Health, Wellness, and Nutrition

Catalog Description:
Health, Wellness, and Nutrition examines how to provide a healthy and safe environment and provide proper nutrition to young children. It sets high-quality expectations regarding policies, procedures, healthful environments, sanitation standards, and preventative care. The emphasis is on application of theory in a variety of early childhood settings. Students will learn how to promote good health, physical fitness and nutrition and to provide a safe environment for children. Topics include motor development, methods of teaching health and safety to children, recognizing symptoms of abuse, neglect, and common children's illnesses. This course also examines the responsibilities of a mandated reporter of child abuse and neglect. Includes 15 hours of lab.

Prerequisites or Necessary Entry Skills/Knowledge:
STSK 0090 or placement by multiple measures.

FULFILLS MN TRANSFER CURRICULUM AREA(S) (Leave blank if not applicable)
Goal 1: Communication: _____ by meeting the following competencies:
Goal 2: Critical Thinking: _____ by meeting the following competencies:
Goal 3: Natural Sciences: _____ by meeting the following competencies:
Goal 4: Mathematics/Logical Reasoning: _____ by meeting the following competencies:
Goal 5: History and the Social and Behavioral Sciences: _____ by meeting the following competencies:
Goal 6: The Humanities and Fine Arts: _____ by meeting the following competencies:
Goal 7: Human Diversity: _____ by meeting the following competencies:
Goal 8: Global Perspective: _____ by meeting the following competencies:
Goal 9: Ethical and Civic Responsibility: _____ by meeting the following competencies:
Goal 10: People and the Environment: _____ by meeting the following competencies:

Topics to be Covered
Setting up and managing a safe indoor and outdoor environment
Creating and implementing safety checklists
Management of accidents and injuries
Menu planning and food safety in early childhood and childcare settings
Promoting good nutrition in early childhood and childcare settings
Food safety
Health care in early childhood and childcare settings
Infection control in early childhood and childcare setting
Child abuse and neglect

**Student Learning Outcomes**

Demonstrate the skills of establishing and maintaining a safe and healthy environment for children.

Identify age appropriate materials and activities for healthy development of children.

Recite the physical and psychological health, wellness, and nutritional needs of young children.

Recite the interrelationship of health, safety, and nutrition.

Define basic child nutrition.

Identify ways to work with children with health issues.

Demonstrate the skills necessary for providing primary care for children, including those who have medical/health needs.

Demonstrate the ability to work effectively with parents from a variety of socioeconomical backgrounds.

Promote good health, physical fitness, and nutritional habits with children, parents, and caregivers.

Interpret responsibilities as a mandated reporter of suspected child abuse and neglect.
