Course Title: Data Security Awareness

Catalog Description:
Data Security Awareness will introduce the student to the need for information security. This includes the ethical, legal and professional security issues. The student will develop an awareness of the types of attacks on data, who would perform such attacks, and how to defend against data loss. The student will learn how to protect their home and office computer from misuse and viruses. The student will also be presented with corporate security strategies, including policies, incident response and disaster recovery.

Prerequisites or Necessary Entry Skills/Knowledge: None
