Course Title: Expanded Functions A

Catalog Description:
Expanded Functions A offers the student experience in mechanical polish, rubber dam application, topical applications, sealant application, gingival retraction and endodontic expanded functions. (The Minnesota Dental Practice Act has made it legal for licensed dental assistants and students enrolled in accredited dental assisting programs to perform these functions.) The student will gain Preclinical competence in these duties through the use of typodonts and clinical competence through classmates and outside patients.

Prerequisites or Necessary Entry Skills/Knowledge:
Satisfactory progress in the dental assisting program, or special permission from the instructor. Student must be certified in CPR before taking this course.

FULFILLS MN TRANSFER CURRICULUM AREA(S) *(Leave blank if not applicable)*
