## Course Outline

**DEPT.** ADSM  
**COURSE NUMBER:** 1240

**Number of Credits:** 3  
**Lecture:** 3  
**Lab:** 0  
**OJT:** 0

**Course Title:**  
Introduction to Health Records

### Catalog Description:

Introduction to Health Records provides a study that charts a path for success in the allied health field. The course focuses on how electronic health records (EHRs) and a philosophy of patient-centric care are currently impacting health information professionals in their everyday careers as well as the patients they serve. In a health information system that is becoming increasingly integrated and cross-disciplinary, health information students need to be equipped with the problem-solving skills to make important connections and to face the challenges and opportunities they will see in their careers.

### Prerequisites or Necessary Entry Skills/Knowledge:

None.

### Fulfills MN Transfer Curriculum Area(S) *(Leave blank if not applicable)*
